

Northwest Chapel Church Family Update

Our online database, NWC Connect, is a tool for serving and connecting with our church family. This system is a powerful tool that we use for email updates, mailings, contact information, giving statements and ministry needs. Access to information is password protected and you control the security settings so only information you want to share is visible to our church family.

This registration indicates you consider yourself a part of our church family. We want to do everything we can to make sure our church family list is accurate so we can stay connected as we minister together in the Body of Christ

Name(s): _____

Street Address: _____

City: _____ Zip Code: _____

His Email: _____ Her Email: _____

Home Phone: _____ His Cell: _____ Her Cell: _____
