A. Community, U.S. and World

- Our Leaders: Pres. Trump, V.P. Vance, Congress, and Governor Dewine
- Local church: Fellowship Baptist Church
- Country: Russia
- Persecuted Country: Saudi Arabia– Islam originated in Saudi Arabia 1400 years ago. Pilgrims make the journey to Mecca annually. Modernization of the nation has created a new openness to the West, with reforms in religious oppression and relaxed laws towards women. Many Saudis have come to know Christ through digital media, travel abroad and exposure to Christians, although converts are still persecuted and sometimes killed.

B. Missionaries-Matt and Cheryl Storer-Child Development International

- Ask the Lord to prepare the way for a training conference for pastors and their spouses in Nepal, April 23-May 8. We will do a deep dive into Biblical training for personal discipleship. The goal is to transform lives from being a slave to sin to being a slave to God and making other disciples.
- Ask the Lord for excellent translation and government approvals for entry visas into Nepal and India.
- Pray for wisdom and understanding while on an exploration visit to remote Nagaland, India at the end of the same trip. We want to help local pastors develop sustainable farm income- generating businesses, designed to provide funds to operate Christian discipleship and evangelism activities in India.
